

AQUA points base times updated for 25m competitions

2024-09-23 - Erik Fornander - Releases

The base times for 1000 AQUA points in 25m pool has been updated now. So you must make sure that you update the AQUA base times in Swimify Meet Manager for any competition in a 25m pool that you organize.

You do this easiest by going into the Points tab (1), click on the button "Edit AQUA 1000 times" (2), click "Import base times" (3) in the new window and finally click on "Download and import current base times from internet" (4).

Important: You must also make sure to delete any old base times that may exist previously!

The screenshot shows the 'Points' tab selected in the software. The 'AQUA 1000 Base times' window is open, displaying a table of imported times. The table has columns for 'Event', 'Men 25m', 'Women 25m', 'Mixed 25m', and 'Me'. The data is organized into 'FINA' and 'Masters' categories.

Event	Men 25m	Women 25m	Mixed 25m	Me
Freestyle				00:
Freestyle	00:20.16	00:22.93		00:
Freestyle	00:44.84	00:50.25		01:
Freestyle	01:39.37	01:50.31		03:
Freestyle	03:32.25	03:51.30		07:
Freestyle	07:20.46	07:57.42
