Swimify Announcer changelog

Erik Fornander - 2026-09-08 - General

Swimify Announcer changelog

v2.14.9746.21616:

Created 2026-09-07

- Updated external components.

---

v2.14.9722.28802:

Created 2026-08-14

- Fix bug when trying to open an older database.
- Fix bug when trying to show victory ceremony on video board.
- Optimized some parts of the program to make it slightly faster.

---

v2.14.9719.15873:

Created 2026-08-11

- The program no longer locks up completely when it lose connection to the database.
- When opening a database on the network it will now check if the IP address is the same as the current computer and then instead open the database locally.
- Increase tooltip show time from 10 seconds to 30 seconds when hoovering the mouse over a relay team.
- Fix bug in video window size and the scaling in Windows is not set to 100%. It should now use the actual width and height values no matter if you use different scaling in Windows.
  Important note: You may need to adjust your values if you are already using video window with Windows scaling other than 100%!
- Fix bug in video window where the full template was not shown in the video window if the scaling was not 100%
- Optimized some part of the program to make it slightly faster.

---

v2.13.9579.21651:

Created 2026-03-24

- Updated Devexpress framework to v25.1
- If you hold Ctrl + Shift during startup then it will not load previously selected database.
- If you double click a ribbon tab it will now no longer minimize the ribbon.

---

v2.13.9537.18676:

Created 2026-02-10

- Add refresh button that will refresh the result list to the right. When user clicks on this button it will reload the result list fresh from the database.
- You can now double click on a summary grid to reload the grid from the database.
- Fix bug that could happen when opening the relay results window twice from Swimify Announcer.
- Make sure to sort the relay results window by rank.
- Add more error handling when receiving database updates.

---

v2.13.9385.25639:

Created 2025-09-11

- Updated framework.
- Updated translation for Faroe Island.
- Fix bug that could cause an error message.
- Added option to read parameters for Canadian para points 2025.

---

v2.12.9180.24875:

Created 2025-02-18

- Add support for result groups when opening events in the Results-tab so that users can view custom result groups and also show them on video board.
- Fix error message when trying to exit Swimify Announcer by clicking the Exit button in the menu.
- Add initial german translation.
- Several other small bug fixes.

---

v2.12.9027.22333:

Created 2024-09-18

- When a relay team is disqualified you can now see which swimmer that caused the disqualification. The result will show DSQ 1, DSQ 2 etc.
- Fix bug in license window that caused version to show up twice.
- Entry diff is not shown if time is 00:00.00.
- Make sure to show age group tabs in Announcer even if there is only one age group.

---

v2.11.8861.21781:

Created 2024-04-05

- Fix bug when calculating/showing heat rank.

---

v2.11.8858.18341:

Created 2024-04-02

- WinGrodan 2 CIS has been renamed to Swimify Announcer and has new desktop icon in Windows. The following things has changed during the name change:
