AQUA points base times updated for 25m competitions

2024-09-23 - Erik Fornander - [Releases](#)

The base times for 1000 AQUA points in 25m pool has been updated now. So you must make sure that you update the AQUA base times in Swimify Meet Manager for any competition in a 25m pool that you organize.

You do this easiest by going into the Points tab (1), click on the button "Edit AQUA 1000 times" (2), click "Import base times" (3) in the new window and finally click on "Download and import current base times from internet" (4).

Important: You must also make sure to delete any old base times that may exist previously!

The screenshot shows the 'Points' tab selected in the 'Swimify Meet Manager' software. The interface includes a menu bar at the top with options like 'Menu', 'Competition', 'Records', 'Events', 'Teams/Clubs', 'Competitors', 'Swimify LiveTiming', 'Withdrawal', 'Time schedule', 'Seeding', 'Results', and 'Points'. The 'Points' tab is highlighted with a red box and a red circle with the number 1. Below the menu bar, there is a toolbar with various icons. The 'Edit AQUA 1000 times...' button is highlighted with a red box and a red circle with the number 2. In the main window, the 'AQUA 1000 Base times' section is visible. It contains a dropdown menu with 'Import base times' selected, highlighted with a red box and a red circle with the number 3. Below this, there is a list of options for importing base times. The option 'Download and import current base times from internet' is highlighted with a red box and a red circle with the number 4. To the right of this section, there is a table titled 'Imported times 1' showing times for various events.
