New version of Swimify v2.14.9746 released and base times for AQUA points has been updated

2026-09-07 - Erik Fornander - Releases

A new version of Swimify Meet Manager, Swimify Timekeeping and Swimify Annoucer has been relased.

We have also updated the file for AQUA points base times. In Swimify Meet Manager you can go to Points tab, open the window that shows the base times for 1000 points and import the latest base times from internet and it will download and import the base times into your competition database.
