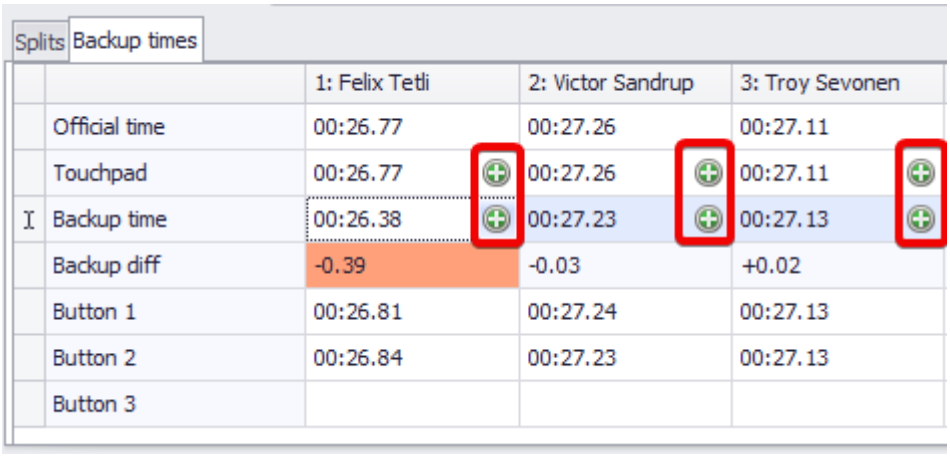
New version v2.13.9579 of Swimify released

2026-03-24 - Erik Fornander - Releases

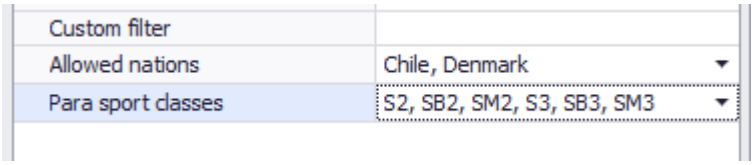
New versions of Swimify Meet Manager, Swimify Timekeeping and Swimify Announcer has been released today.

Swimify Meet Manager has gotten several changes while Swimify Timekeeping and Swimify Announcer has fewer changes.

In Swimify Meet Manager you can now for example easily take backup times or touchpad times by just clicking the button next to the time in the backups grid.



Another feature is that you can now select in individual AQUA point lists to only include swimmers from selected nations or swimmers that belong to selected para sport classes.



To view all changes then please read the change log articles that is linked as related content to the right.
