New version v2.13.9658 of Swimify released

2026-06-11 - Erik Fornander - Releases

A new version of Swimify Meet Manager and Swimify Timekeeping has been released. Swimify Timekeeping has gotten a new option to swap first name and last name when exporting events. In Swimify Meet Manager we have for example added a window to select events when importing entries from Lenex file and also choose which Swimify events the entries should be saved to. See the change logs to find out more about what has changed.
